Title: AOA **Created By:** John Jorgensen

On 09/07/2019 a mutual aid request was put out by Richfield and Edina Police Departments to assist with perimeter and crowd control following an officer involved shooting.

Sgt. Johnson authorized Sgt. Baker and I to assist. I responded to the staging area as requested at 77th St and Chicago Ave. Sgt. Baker and I checked in with a deputy taking names and badge #'s. I assisted other units with maintaining a visual of the crowd and protecting the crime scene. I also assisted cordoning off the crime scene area with yellow police tape.

At not time did I have physical contact with any member of the public. No use of force.

Title: sup **Created By:** Jamie Baker

I assisted Richfield and Edina Police Departments with crowd control. Officer Jorgensen and I were assigned to an outer perimeter area. We were requested to assist with setting up crime scene tape. At no time did I have any physical contact with any members from the crowd.

My BWC was activated, with the majority of it being muted because I wasn't having direct contact with the public. I did completely turn off my BWC when I entered the Command Post. My BWC was not turned on after this because Officer Jorgensen and I advised we could leave the scene.
