Minnesota Statute: 609.205(5), with reference to: 609.205

Maximum Sentence: 10 YEARS AND/OR \$20,000

Offense Level: Felony

Offense Date (on or about): 12/30/2018

Control #(ICR#): 18019694

Charge Description: That on or about 12/30/2018, in Hennepin County, Minnesota, RIANNA MARIE CAMERON, caused the death of Victim A by committing or attempting to commit a violation of Minn. Stat. 609.378: Neglect or Endangerment of a Child.

## STATEMENT OF PROBABLE CAUSE

Complainant has investigated the facts and circumstances of this offense and believes the following establishes probable cause:

On December 30, 2018 at 8:39 p.m., officers with the Rogers Police Department were dispatched to a townhome on Superior Drive, Rogers, Hennepin County, Minnesota on a report of a non-responsive infant.

When officers entered the townhome, they observed two small children, a two-year-old and a three-year-old, in the first-floor family room. Both of the children were in diapers and unattended. Officers heard a male voice coming from the upstairs. In the upstairs master bedroom, officers found the mother: RIANNA MARIE CAMERON (DOB: 07/25/1990; hereinafter "Defendant"), and the father: B.G.L.

The Defendant was lying on the right side of the master bed. BGL was standing at the end of the bed near the Defendant's feet. An infant girl was also in the bed. She was lying at the foot of the bed, next to the Defendant's feet. Her umbilical cord was still attached to the Defendant. The infant was blue/purple in color, her eyes were closed, and she did not appear to be breathing. She was identified as Victim A.

When officers entered the room, they asked BGL how the Defendant was doing. He responded that she was "a little bit out of it." The Defendant then stirred and said she had been on a "bender." When asked what she meant, the Defendant said she had been drinking. She said she started drinking at about 5:00 p.m. The Defendant said she drank about a liter of whiskey. She was 34-weeks pregnant with Victim A.

Upon entering the master bedroom, officers also began life-saving measures on Victim A. Paramedics arrived at 8:54 p.m. with a heart monitor, registering Victim A's pulse at 60 beats per minute. This is considered very low for an infant. Victim A was transported to the hospital. On the way, her pulse was lost completely.

Victim A did not survive. She was officially pronounced dead at 9:39 p.m. In a subsequent autopsy, Victim A's death was found to be: "Complications of Acute Ethanol Intoxication and Unsupported Delivery." Her blood ethanol content was 0.234 g/dL. Medical staff did not find any other medical conditions which would have prevented Victim A from surviving.

The Defendant was also transported to the hospital. Prior to, officers observed numerous signs of impairment in the Defendant. She consented to a Preliminary Breath Test, and at 9:08 p.m., her Blood Alcohol Content (BAC) registered at 0.183. At the hospital, she was again tested, registering 0.21 at approximately 9:51. No other controlled substances were detected in her blood.

In speaking with the Defendant and BGL, officers learned the following transpired prior to their arrival on December 30:

At approximately 5:00 p.m., BGL went to the store to buy milk. When he left, the Defendant was downstairs on the couch. BGL returned at 5:30 p.m. The Defendant was upstairs in the master bedroom, passed out, but otherwise okay. BGL found Victim B and Victim C were in their cribs crying. He brought them downstairs and turned on a movie. BGL also found an empty 1.75 liter of Evan Williams whiskey in the kitchen. He said the bottle was at least half full the last time BGL saw it. Officers collected the bottle.

At approximately 8:30 p.m., BGL heard the Defendant screaming from the upstairs bedroom. He grabbed two cans of soda because the Defendant has Type I diabetes. He went upstairs and found the Defendant with her pants off. Victim A was wrapped somewhat in the Defendant's pants. He began to give Victim A

CPR and then called 911.

The Defendant knew the risks of drinking alcohol while pregnant with Victim A. She has a lengthy chemical dependency and child protection history. For instance, she has been civilly committed for alcohol addiction three times since 2012. She has been in and out of treatment. In 2015, a referral was made to Project Child after a report of prenatal alcohol exposure involving Victim C was received by Child Protection. In the months leading up to Victim A's death, the Defendant was reportedly in treatment. Her treatment provider made a report to Child Protection because the Defendant was drinking while pregnant. Law enforcement also spoke to the Defendant regarding her use in the months leading up to Victim A's death on at least two occasions. First on July 24. At that time, the Defendant told officers she was back in treatment. The second was on December 15. Then they again warned her about the dangers involved with drinking while pregnant. The Defendant told police she understood the dangers and claimed she was still doing treatment. She assured officers that no harm would come to the child. Victim A was dead 15 days later.

The Defendant is out of custody. Given the severity of the offense and the Defendant's severe chemical dependency, the State is requesting a warrant. Additionally, while the Defendant has engaged in some of her child protection case plan, the most recent update indicated that she disengaged in individual counseling and that the Department is extremely concerned about the Defendant's insight into her chemical dependency issues and the impact they have on her ability to provide a safe environment to her other children.

## SIGNATURES AND APPROVALS
