Narrative

Narrative:

Engine 7 responded to the report of a shooting with police on the scene. Upon our arrival before we entered the building we were met by an unknown officer who requested us to look at his hand it was deformed and swollen asked what happened he said it happened from punching someone it was broken gave him an ice pak and proceeded inside. We had a male gun shot victim laying in a door way/ hallway first floor the victim was shirt less and had an occlusive dressing covering a entrance wound to the upper left chest area. we were told this was applied by police on the scene The male had a weak pulse with very shallow respirations we started to ventilate with a bag valve mask he would not take a king air way HCMC medic supervisor arrived with two medics we loaded the male party onto the canvas and carried out to their rig. We sent two fire personal to HCMC while en route we assisted with ventilations and air way placement, patient had a very weak pulse our airway bag stayed with the medic rig as part of the scene evidence
