

Hazardous and universal waste disposal companies for construction and demolition sites

This list includes hazardous and universal waste disposal companies in the Twin Cities that can dispose of wastes from construction and demolition (C&D) sites. This list does not constitute approval of any of the firms identified nor do we claim the list is complete.

Architectural coatings

PaintCare sites accept waste architectural paints, primers, sealers and clear-coats from businesses and households free of charge, with some restrictions. For eligibility and restrictions, and participating collection sites, visit paintcare.org

Recycle construction and demolition materials

Plan ahead to coordinate recycling for building materials that can't be salvaged for reuse. There are several C&D processing facilities in the Twin Cities that accept materials such as asphalt, metals, and wood for recycling. C&D processing facilities can recover about half of materials for recycling, putting C&D materials to better use than if they were sent to landfills.

The companies listed below accept loads of C&D materials or can provide roll-off boxes to keep at sites to collect materials throughout the project at a comparable price of sending these materials to a landfill.

- Atomic Recycling (Minneapolis) 612-623-8888
- Dem-Con (Shakopee) 952-445-5755
