

Hennepin County Housing with Services-Independent (HWS-I) Provider List

Housing with Services Independent (HWS-I) is a community-based Housing Support program that creates affordable housing opportunities for people to live independently in the community. The HWS-I program includes the Housing Support base rate but does not include funding for services. Providers are expected to either leverage other funding to provide supportive services (Housing Stabilization Services, waived services, grant funds, etc.) OR connect clients to other community partners that can provide needed services. Housing Support funds are **never paid directly** to a landlord but must be paid to an approved Housing Support Provider who receives the benefit and pays room and board costs on behalf of the tenant. The providers listed in the chart below have a Housing Support agreement with Hennepin County to administer the HWS-I program.
