

Participate in the Mighty Mississippi Cleanup Challenge

The Mississippi River, and all of the lakes, rivers, and streams in Hennepin County, make this a great place to live.

We have been challenged by our downstream neighbor, Goodhue County, to participate in the Mighty Mississippi Cleanup Challenge, and we wholeheartedly accept!

Help us showcase the commitment to keeping the environment healthy in Hennepin County by picking up litter in celebration of Earth Day.

How to take action

Step 1: Get outside and clean up trash any time between April 15 and May 15

Step 2: Snap a photo of your group

Step 3: Share your results at the link below!

Share your cleanup results at hennepin.us/report-a-cleanup

We'll combine our results and submit the data from across the county to the Mighty Mississippi Cleanup Challenge.

Thank you for helping take care of our environment this Earth Day!
