Board and Lodge

Who is eligible for Board and Lodge?

Generally, the program serves:

- People 65 or older.
- People younger than 65 who have a condition that limits their self-sufficiency. For example, it may be physical or mental health disability, visual impairment or chemical dependency.

A [Professional Statement of Need](#) is part of the Housing Support application process and will need to be completed by a qualified professional on your behalf and submitted to Hennepin County's Economic Assistance.

Board and Lodge providers may have additional eligibility requirements based on their service model and expertise. For example, some Board and Lodge programs may require sobriety or may work exclusively with people coming from a correctional setting. Those additional requirements are searchable at HB101 Places (see link below) or can be explained by each Board and Lodge operator.

Please note Board and Lodge providers offer varying supportive services ranging from meals only to medication management or case management support. Most settings have house rules. It is important to understand what services are available as well as the rules for people living in these programs.

How do I get access to a Board and Lodge program?

Individuals locate a Board and Lodge provider with a vacancy by using the links provided below.

Board and Lodge providers will offer guidance on applying for the Housing Support benefit via the Combined Application Form (**See How to Apply for Housing Support**) and will provide a document called a **shelter verification form** to be submitted with your CAF. That form can be submitted electronically here: https://formcatalog.hennepin.us/hhs/human_services/economic_supports/AF10D64.htm

Individuals interested in living in a Board and Lodge can search the housing directory at [HB101 Minnesota - HB101 Places](#)

A Board and Lodge provider directory can also be found here: [For current and future housing providers | Hennepin County](#)

Case Management

How can I access housing case management?

Housing case management is available on a limited basis through the Coordinated Entry System for people experiencing homelessness (i.e. people residing in shelter or sleeping in a place not meant for human habitation). All residents experiencing homelessness should complete a Coordinated Entry System assessment (CES). To identify a location where you can complete a CES assessment, please view the "Access" section of the [CES Website](#). Please note that there are different entry points for families with minor children, adult households, and youth aged 16-24.

How can I get back in touch with my housing case manager?

If you have a housing case manager but have lost contact with them, you can request their contact information by contacting a program or staff person with Homeless Management Information System (HMIS) access. These include shelter programs, outreach programs and workers, drop-in centers, Adult Shelter Connect, Coordinated Entry System assessment locations (please view the "Access" section of the [CES Website](#)), and others. If your contact information has changed, please contact one of these programs or staff to update your contact information in HMIS.

Who can I talk to if I have a concern about my housing case manager?

If you would like to report a concern about your housing case manager, the best course of action is to inquire about the grievance process at the agency at which your case manager works. This information can be made available by your case manager and/or their supervisor.

Coordinated Entry System (CES) Assessment and Status

What is the purpose of a CES assessment?

Coordinated Entry System (CES) assessments ensure standard practices are utilized at every point of entry for every participant in CES, including:

- Obtain participant consent for sharing data with providers
- Initiate a housing plan with the participant

Who is eligible for a CES assessment?

Eligibility for Coordinated Entry System (CES) assessment eligibility is detailed on Hennepin County's [CES Website](#) and listed below:

- 16 years of age or older
- Currently sleeping in a homeless shelter, outside or in vehicle or fleeing or attempting to flee domestic violence
- A resident of Hennepin County or have strong ties to Hennepin County
- Household income does not exceed 30% of the Area Median Income* (AMI) for the household's size.

*Click [here](#) to view the U.S. Department of Housing and Urban Development's (HUD) AMI limits.

Where can I go to complete a CES assessment?

To identify a location where you can complete a Coordinated Entry System (CES) assessment, please view the "Access" section of the [CES Website](#). Please note that there are different entry points for families with minor children, adult households, and youth aged 16-24.

Where can I go to find the status of my CES assessment?

Eviction Prevention

How do I know if my landlord or property manager plans to evict me?

The eviction process begins with a 14-day notice of planned eviction filing issued by the property manager. This notice means that the property manager intends to file for eviction in 14 days. When the property files for eviction, the court issues a summons to the tenant (the summons must be issued at least 7 days before the scheduled court hearing). The summons is served to the tenant.

If you have received a court summons, it is important that you attend your court hearing. To access legal representation available to low-income tenants, visit www.hennepin.us/ARS and complete an [eligibility form](#).

What resources am I eligible for to help avoid an eviction?

If you are at risk for eviction, you can take steps now to maintain your housing. To access legal representation available to low-income tenants, visit www.hennepin.us/ARS and complete an [eligibility form](#). To make a request for emergency rental assistance available to low-income tenants at imminent risk for eviction, please complete a RentHelp Hennepin prescreen by visiting: <https://renthelphennepin.hdsallita.com/home>.

Additional resources for emergency situations eligible to low-income households, including utilities assistance and expenses associated with housing relocation (e.g. damage deposits and transportation costs), visit <https://mnbenefits.mn.gov> to apply for Emergency Assistance or Emergency General Assistance. For assistance with completing an online application for Emergency Assistance or Emergency General Assistance, call 612-596-1300 between 9am-3pm on Monday-Friday.

For additional information about eviction prevention resources, please visit www.hennepin.us/residents/human-services/eviction-prevention.

What should I do if I received a 14-day notice letter?

If you have received a 14-day notice letter from your property manager, that means your property manager intends to file for eviction in 14 days. This is not the date on which you will need to leave your home, but rather the point at which the court may take action by issuing a court summons and initiating eviction proceedings. Tenants with a 14-day notice letter should visit www.hennepin.us/ARS and complete an [eligibility form](#) to determine if they are eligible for free legal representation. Additionally, tenants should work with their property manager to establish a payment plan.

If you receive a court summons, that means your property manager has filed for eviction. It is important that you attend your court hearing to avoid a default eviction judgment. Tenants with an eviction filing may be eligible for emergency rental assistance for past due rent and can make a request through the RentHelp Hennepin prescreen (visit <https://renthelphennepin.hdsallita.com/home>).

Housing Subsidies

Where can I go to get a housing voucher?

Coordinated Entry offers a very limited numbers of vouchers for people experiencing homelessness. The majority of housing vouchers are awarded through local housing authorities. Please visit www.housinglink.org for a list of Housing Authorities currently with open waitlists. Veterans can contact the Community Resource and Referral Center (CRRC) at 612-313-3240 or www.va.gov/homeless/crrc.asp, where veterans-specific housing vouchers may be available.

How long does it take to get a housing voucher?

While a limited number of housing vouchers are available in a prioritized fashion through the Coordinated Entry System to people experiencing homelessness (i.e. people residing in shelter or sleeping in a place not meant for human habitation), the majority of housing vouchers are awarded through local housing authorities through a first come, first serve basis. Housing authorities maintain waitlists for these voucher programs and waitlists are opened only periodically. When this occurs, applications are made available to eligible residents, after which a resident is placed on a waitlist. Wait times for residents on a voucher waitlist can range from several months to several years. As such, being placed on a waitlist does not guarantee that a resident will ultimately receive a voucher.

Where can I go for assistance with finding a rental unit for my housing voucher?

Those with a voucher seeking a unit at which they can apply their voucher are encouraged to do one or more of the following:

4. Work with a housing case manager, if connected to one, for support with locating a unit;
5. Contact the housing authority administering the voucher for any unit lists or databases maintained by the housing authority;
6. Search for eligible units at www.housinglink.org.

What resources can I access if I am at risk of losing my voucher?

If you are concerned about losing your housing voucher, please contact the housing authority administering the voucher to explore your options. Those connected to a housing case manager should inform the case manager of their concerns and request assistance with maintaining their voucher.

What resources can I access if I am at risk of losing my voucher?

Rapid Re-Housing slots are limited in availability and are accessed exclusively through the Coordinated Entry System for people experiencing homelessness (i.e. people residing in shelter or sleeping in a place not meant for human habitation).
