

Lyndale Avenue South reconstruction

Our project to reconstruct Lyndale Avenue South (County Road 22) between Franklin Avenue (County Road 5) and 31st Street is continuing. We heard you and your thoughts about how to improve the corridor. Your feedback is helping guide our work as we put the finishing touches on section concepts, or snapshots of what the corridor could look like with different roadway elements.

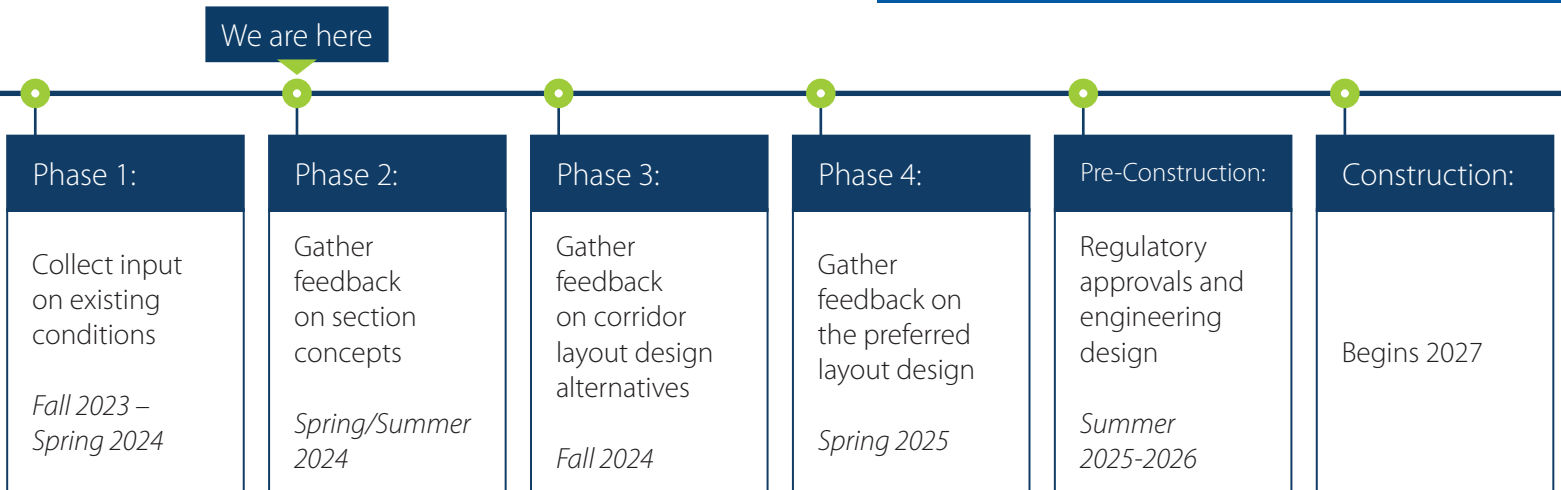

Ways to stay engaged

Visit our engagement portal to view the section concepts, learn about upcoming events, sign up for email updates, or to take our five-minute survey.

The phase 2 survey will be available throughout June 2024.

Engagement timeline

subject to change

Project schedule update

We anticipate a continued high level of interest in this project and high volume of feedback. To be sure we have enough time to consider your input and to balance with other considerations, we extended our project timeline and have added another phase of engagement.
